

Shipping Policy

How much is shipping?

Domestic shipping is a flat \$7.95. If you need to return your order, you will need to reach out to us through email and receive a “return code” and we will provide you with a return label.

How long will it take for me to receive my Skincare Products?

Once your order is placed, you’ll receive an email confirming we have received it. Orders take 1-2 business days to process and once shipped you will receive a confirmation email complete with tracking number.

For orders placed within the continental United States USPS shipments are usually delivered within 7-10 business days.

Do you ship internationally?

We currently only ship directly within the United States. If you live anywhere outside of the United States, HopShopGo offers an effective workaround to ship from the US anywhere in the world.

Please note that HopShopGo and Epice International are not directly affiliated, however, and any customer service inquiries for their shipping/site should be directed toward them. Additionally, all sales outside of the contiguous United States are considered final as we cannot accept returns outside of that area at this time.
